THE TIME PROBE

The Time Probe has the ability to travel both Time & Space. Although not fully functional because of the crash, it is the Lizards only chance to return home. Unfortunately Tiberious Toad is battling the Lizards for control of the probe to carry out a much more sinister plan.

Probe makes a 'whirring' motor sound when in flight.

Figures can sit at controls inside the Time Probe

Removable Top to Allow Access to the Interior

Operating Lights on Outside of Probe and on Control Panel

Windows Light Up & Flash When in Flight

Blinking Marker Lights

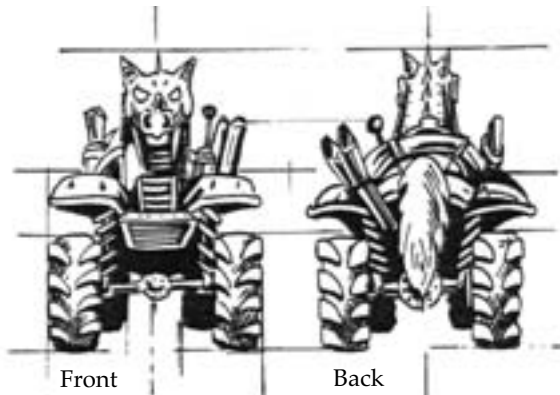

Storage Area for figures & their accessories
